**MINDSCAPE
TAURANGA
17 / 18 JUNE**

Welcome

To Daily Transformations

MindScape helps you design your life ... and unleash the potential you've been longing to access!

"When i discovered MindScape 12 years ago, it was like getting the key to the door of my new life!"

Jane

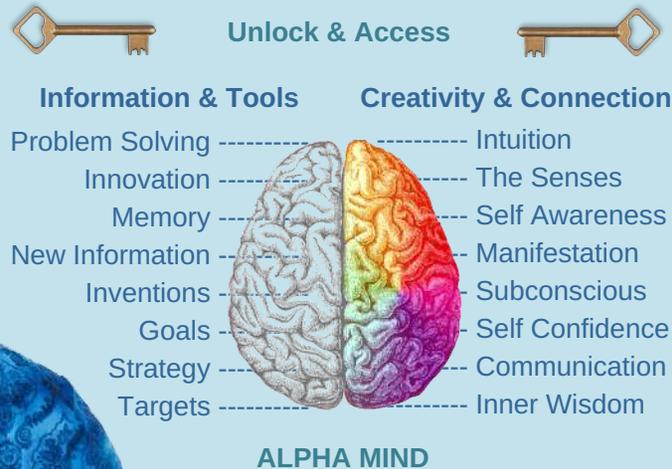

COURSE INSTRUCTOR

Jane is 1 of only 12 international instructors certified to teach MindScape - and currently the only one based in Australasia.

MINDSCAPE: WHY IT WORKS

The Key is that you learn to access a deeper and clearer way of working with your mind and intuition, by having a structured yet creative method that works easily and effectively.

MindScape is a dynamic system designed to unify the brain and the heart - and the mind and spirit

With MindScape it is like giving your mind a new programme, complete with a map, along with your own GPS system to connect into and focus on any aspect of your life.

MindScape uses an innovative combination of biology, quantum law and holistic new world practices.

HOW YOU WILL FEEL

THE FREEDOM YOU'LL FEEL EVERYDAY

You know there is a better way and you soon learn how to achieve this as Jane leads you through the interactive sessions.

First off, Jane gives you the scientific support for why and how the MindScape material and system works. It also gives your left brain enough information to relax and let your right brain "have a go" and unlock your creative and powerful mind. As you go through interactive sessions you explore and have fun. In one session your mind goes to the gym - and don't be surprised if you start to perspire!

As you work through the sessions you'll really want to move on in life and to lose the noise and anxiety. And by the end you'll have permission to walk right through that door and make those transformations you've always wanted!

"MindScape is an amazing opportunity to access and explore your mind, your world and discover more about your true potential in this life!"

Jonathan Callinan: Managing Director of The Wellness Directory Ltd.
